Description :

DATACENTER TECH CABINETS **Front glass door, side and rear blind panels**

Datacenter TECH cabinets are designed for the containment of all kinds of server computers and 19" active components that are available in the networking market. The rack can house 19" accessories and it is suitable for the installation of specific accessories with increased depth to contain and support non-modular devices. They are available with width of 600 or 800 mm and depth of 1000 or 1200 mm, front glass door, side and rear blind panels.
